TO ALL BODIES OF ELDERS

Re: Consignment of new tracts

Dear Brothers:

We are writing to inform you that we have consigned to all English-speaking congregations a quantity of the five tracts that were released at the district convention. All publishers should be encouraged to use them in the ministry straight away.

The tracts will be shipped to the language-coordinating congregations in September. Since these are part of the general stock, the service overseer of the language-coordinating congregation should ensure that the tracts are made available to all congregations in the literature group.

As the tracts are being consigned we are delaying the release of the English tracts on the website until October 1, 2013. All tracts in other languages may be requested after September 1, 2013.

We hope that these tracts will prove to be excellent tools for the advancement of the Kingdom work. We send our warm Christian love.

Your brothers,

*Christian Congregation
of Jehovah's Witnesses*
