## TO ALL BODIES OF ELDERS

Re: Arrangement for Hospital Liaison Committee (HLC) members to give public talk outline No. 135

Dear Brothers:

We are happy to inform you that HLC members and some Patient Visitation Group (PVG) members in our branch territory have been asked to develop the public talk outline No. 135 entitled "The Sacredness of Life and Blood." Information has been given to these brothers to include in the delivery of the talk that will be helpful to our brothers and sisters in preparing to meet tests of faith involving blood transfusions.

We encourage you to take advantage of this arrangement and to schedule the delivery of this talk in your congregation by the end of the 2014 service year. However, you may continue to use this arrangement periodically when you see a need for encouragement in this area in your congregation.

If you have an HLC brother in your congregation, we encourage you to make arrangements for him to deliver the talk in your congregation. If you do not have an HLC brother in your congregation, please contact the HLC chairman as noted in your listing of HLC members for assistance in scheduling an HLC or PVG brother to give the talk in your congregation.

We pray that this arrangement will be of benefit to all. Please accept our warm Christian love and greetings.

Your brothers,

*Christian Congregation  
of Jehovah's Witnesses*
