Re: Branch Relocation – Project update

Dear Brothers:

We are happy to inform you that an exciting milestone was reached on Monday 1st December when the outline planning application for our branch relocation project was submitted to Chelmsford City Council.

Although the industry average to prepare an application for a major project is between 12-18 months, our hardworking brothers and sisters accomplished this task in just 11 months! Once entered into the Council's system, the statutory period for a decision is 16 weeks. There are, however, many factors that could delay this process.

Therefore, we would like to encourage you to make this a matter of regular and specific prayer that Jehovah move the hearts of planning officers and officials, as well as to give wisdom to the brothers working on the project so that they can overcome any objections that may be raised.

We rejoice in this thrilling progressive step, and close by sending you our warm Christian love and greetings.

Your brothers,

*Christian Congregation
of Jehovah's Witnesses*

PS to body of elders:

Please arrange for this letter to be read to the congregation at the first Service Meeting after its receipt.
