Re: Kingdom Hall Utility Supply

Dear Brothers:

We are writing to inform you of an adjustment to the supplier arrangement for Kingdom Hall utilities. Effective immediately, Total Gas and Power (TGP) should be used when next renewing any Kingdom Hall utility contracts. All the details of the supplier arrangement can be found on the "Supplier Arrangements" tab of the [jw.org](http://jw.org) website.

As you will appreciate, this coordinated approach will enable Watch Tower to negotiate rates more effectively, and ensure consistent service to all congregations. If you feel there is a good reason why this arrangement should not be used for your Kingdom Hall, or if you need any further assistance, please contact the Purchasing Department via the [jw.org](http://jw.org) inbox.

We thank you for your kind cooperation with this arrangement, and are pleased to send our warm Christian love.

Your brothers,  
*Christian Congregation  
of Jehovah's Witnesses*
