Re: Adjustment to Forthcoming Local Needs Item

Dear Brothers:

We are writing regarding a video that is to be shown during the local needs item scheduled for the week of January 25, 2016.

The eight-minute video is entitled “‘Unless Jehovah Builds It’—Psalms 127:1.” Its purpose is to provide congregations in Britain and Ireland with an update regarding the work of the Local Design/Construction Department as well as our branch relocation project. It will be made available on [jw.org](http://jw.org) under “Event Media” on Friday, January 22, 2016.

When introducing this video, seek to build the enthusiasm of the congregation towards the fine work that is taking place in connection with theocratic construction projects, which gives clear evidence of Jehovah's blessing. Please also commend the brothers and sisters for the way they are supporting the work with their volunteer spirit and contributions.

Please be assured of our warm Christian love and best wishes.

Your brothers,

*Christian Congregation  
of Jehovah's Witnesses*
