Re: JW Broadcasting Available on Apple TV and Amazon Fire TV

Dear Brothers:

Since JW Broadcasting was launched in October 2014, videos have been made available for viewing on tv.jw.org, in the *JW Library* app, and on Roku streaming devices. We are pleased to inform you that JW Broadcasting is now also available on the following streaming devices:

- Apple TV (4th generation only; not available on earlier models)
- Amazon Fire TV and Fire TV Stick

Information on how to install and use JW Broadcasting on these devices can be found in the jw.org online help section for JW Broadcasting. A link to the online help is found at the bottom of any page on jw.org.

We hope that making JW Broadcasting available on these additional devices will make it easier for many to get the full benefit from our organization's faith-strengthening videos. Please accept our warm Christian love.

Your brothers,
*Christian Congregation
of Jehovah's Witnesses*

PS to coordinators of the bodies of elders:

At the next midweek meeting, please arrange for an announcement to be made to the congregation that a letter on the above-noted subject has been placed on the noticeboard.
