TO ALL BODIES OF ELDERS

Re: Data collection project

Dear Brothers:

The branch office is organizing a data collection project on all existing properties in the branch territory beginning August 2016. In relation to this, we have sent out 12 brothers to gather the necessary data. In order not to miss out on any existing property, we have given the mobile numbers of both the coordinator of the body of elders and the secretary to these brothers. We request that you provide them with all the necessary information pertaining to the data collection project.

Some of you would have the privilege to demonstrate hospitality to these brothers by providing them with accommodation as they move from one location to the other. Rest assured that Jehovah will never forget all the efforts you will make to assist the data collection project. —Heb. 13:16.

Please accept an expression of our warm Christian love and best wishes.

Your brothers,

*Christian Congregation  
of Jehovah's Witnesses*
