TO ALL BODIES OF ELDERS IN THE UNITED STATES BRANCH TERRITORY

Re: Update on Local Design/Construction Arrangement

Dear Brothers:

We are pleased to inform you that a video entitled “Update on U.S. Local Design/Construction Arrangement—November 2016” has been prepared for the congregation. This video provides a report on the progress of Kingdom Hall construction and renovation in the U.S. branch territory.

The video will soon be available to the elders in the “Event Media” section under the “Documents” tab on [jw.org](http://jw.org) in English and Spanish. It should be played at the beginning of the local needs part for the week of November 7, 2016. The brother assigned this part should briefly introduce the video. If your congregation will be attending a circuit assembly, then it may be scheduled for a future local needs part. Other parts in the meeting that evening should be reduced accordingly if the time allotted for the local needs part is insufficient to show the video. Additional video updates will be provided in due course.

At the conclusion of the video, please inform the congregation that any who wish to apply as a volunteer should see the congregation secretary to obtain a *Local Design/Construction Volunteer Application* (DC-50). Thereafter, volunteers should be reminded of the importance to maintain up-to-date information in their individual profile in *Builder Assistant*.

Please be assured of our warm Christian love and best wishes.

Your brothers,

*Christian Congregation  
of Jehovah's Witnesses*

c: Circuit overseers
