Re: Discontinuance of the CN-14 form

Dear Brothers:

Kingdom Hall inspections are carried out by Local Design/Construction Department (LDC) members of the branch. As you know, this program started this 2016 calendar year with inspections being performed by trained brothers throughout the country. These biannual inspections will make it possible to detect any maintenance and cleaning problems existing in a Kingdom Hall, and implement the necessary corrective measures.

Therefore it is no longer necessary for local brothers to perform inspections of their Kingdom Hall and, consequently, the *Kingdom Hall's Maintenance and Safety Checklist* (CN-14) form should no longer be sent to the branch office. This form should no longer be used and is no longer available on JW.org. Thank you very much for taking this matter into account.

Please be assured of our Christian love and best wishes.

Your brothers,

*Testigos Cristianos de Jehová*
