TO ALL BODIES OF ELDERS IN THE UNITED STATES BRANCH TERRITORY

Re: Update on Local Design/Construction Arrangement

Dear Brothers:

We are pleased to inform you that a video entitled “Update on U.S. Local Design/Construction Arrangement—May 2017” has been prepared for the congregation. This video provides a closer look at the assignments being cared for by field representatives and construction group members throughout the U.S. branch territory.

The video will soon be available to the elders in the “Event Media” section under the “Documents” tab on jw.org in English, Spanish, and American Sign Language. It should be played at the beginning of the local needs part for the week of May 1, 2017. The brother assigned this part should briefly introduce the video. If your congregation will be attending a circuit assembly, then it may be scheduled for a future local needs part. Other parts in the meeting that evening should be reduced accordingly if the time allotted for the local needs part is insufficient to show the video.

At the conclusion of the video, please highlight practical ways the congregation can continue to support those in special full-time service within the LDC arrangement. In addition, please commend all those who may have had a share in supporting theocratic construction and encourage them to continue making themselves available. Volunteers should be reminded of the importance to maintain up-to-date information in their individual profile in *Builder Assistant*.

Please be assured of our warm Christian love and best wishes.

Your brothers,

*Christian Congregation
of Jehovah's Witnesses*
