Re: Supplier Arrangements on jw.org

Dear Brothers,

In order to maximise the use of dedicated funds and to support congregations in the maintenance of their Kingdom Halls, the Purchasing Department has arranged a number of supplier arrangements with various companies to provide goods and services to congregations and Kingdom Hall Operating Committees at reduced cost.

With this in mind, please regularly review the supplier arrangements posted on jw.org to establish whether these arrangements could be used more effectively. The goods and services covered by these arrangements include the provision of cleaning supplies, Kingdom Hall cabinetry items, stage furniture, sound and video equipment, carpet cleaning services, and many others.

In addition, we wish to again highlight the arrangement announced earlier this year whereby congregation publishers may obtain vehicles owned by the branch office that were previously used by circuit overseers, LDC construction teams, assembly hall caretakers, or at the branch office. The vehicles are listed on the website: carsRR.jw.org.au. The log-in details and instructions for the site are listed on the page below which should be printed and posted on the information board. After doing so, please arrange an announcement at the midweek meeting reminding publishers of this arrangement.

Thank you for bearing in mind the arrangements outlined above as we work together in contributing to Jehovah's praise. (1 Peter 2:12) Please be assured of our love and our appreciation for your work in Jehovah's service.

Your brothers,

Watchtower B. & J. Society
OF AUSTRALIA

c: Circuit overseers
Assembly Hall overseers
Convention committees
Field members

For surplus branch-owned vehicles, please type the website address into the Internet browser's website address bar, not in Internet search engine websites such as Google, as shown below. The website details are also available in the Supplier Information section under the Documents tab on jw.org and may be provided to those who enquire.
