Re: 2018 Special Conventions

Dear Brothers:

This is to inform you that seven special conventions are being planned for the 2018 convention season in various parts of the world. Since the special convention venues are generally smaller in size, the number of delegates being invited will be limited. ***For that reason, only selected congregations will be invited to apply.*** While your congregation has **not** been selected to provide delegates in 2018, we will rotate this privilege in the future.

Only applicants who are actually selected as delegates are to make plans to attend one of these special conventions. Therefore, persons not invited by the branch office should not attend any of these special conventions. Problems arise for the organization when individuals who are not selected make arrangements in connection with these events.

Please be assured of our warm Christian love and best wishes.

Your brothers,
*Christian Congregation
of Jehovah's Witnesses*

c: Circuit overseers

PS to bodies of elders:

Please arrange for this letter to be read to the congregation at the conclusion of the next *Watchtower* Study or during the next midweek meeting, whichever comes first.

IMPORTANT: If your particular congregation has specifically received the invitation letter to apply, the above letter should not be read.
