Re: New Website and Publication in Dagbani

Dear Brothers,

We are very happy to inform you that our official website, [jw.org](http://jw.org), is now available in the Dagbani language. At this time, you will be happy to know that the following publications and audio-video files are now available in Dagbani on [jw.org](http://jw.org):

Brochure: *Listen to God and Live Forever*

Video: Why Study the Bible?

Video: Remember Jesus' Death

Also, the Dagbani *Listen to God and Live Forever* brochure is available in hardcopy, and congregations may start placing orders.

Please, feel very free to start using the electronic versions of the *Listen to God and Live Forever* brochure in the ministry. However, to assist us in sharing this publication with those in the Dagbani community in our branch territory, a special campaign has been planned for March 2018. In due course, further information regarding this special campaign will be provided to congregations which have Dagbani communities in their field service territories. Thus, such congregations should not place any order now, as the brochure will be consigned to them.

Please accept an expression of our warm Christian love and greetings.

Your brothers,

*Christian Congregation  
of Jehovah's Witnesses*
