Re: News about the Project of Branch remodeling

Dear Brothers:

Thanks to Jehovah's blessing, along with your support and prayers, the branch remodeling is going ahead at a good pace (the monthly picture report shows some of the things attained).

We can only express heartfelt appreciation for the overwhelming response to our request for experts in construction trades. Hundreds of applications have been received and a good number of professionals are already working with us. (2 Chronicles 2:13, 14) We feel sure that the specialized help needed will be available until the project is completed, early in the year 2021.—Isaiah 6:8.

Many brothers that cannot come and help personally are supporting the construction program through their generous contributions, their sincere prayers and encouragement offered to the volunteers, all of which we certainly appreciate. (2 Corinthians 8:4) Among those who cannot come here to work are *our dear young people*. However, we have thought of a way that they also can collaborate!

We have a special 'construction' assignment for you children! Drawings and plans are necessary for construction. Well, we would like very much to have your drawings! What do you imagine that construction work is like? What job would you like to do if you could come? Could you draw a construction project that is mentioned in the Bible? Or, maybe you would like to send a message that will make the brothers in construction know that we like what they are doing. It will be great to receive your drawings and comments! Please write your name, age and congregation on the paper, and send it to us through the congregation. We have a special place in the construction area to show some of your drawings and messages, and we are looking forward to receiving them.

Always be assured, dear brothers, of our warm Christian love.

Your brothers,

Testigos Cristianos de Jehová

PS to coordinators of the bodies of elders: We will be grateful if you could send us the items prepared by the young people in the congregation to the postal address of the branch:

Construction Progress

No. 11

Carpeting, tiling, heating - and electrical installations are almost ready in the main building. The volunteers are giving their best and we invite you too to work with us.
