Re: Public Ministry During COVID-19 Outbreak

Dear Brothers:

We are writing further to the recent direction about changes to the ministry in view of the coronavirus (COVID-19) pandemic. We confirm that this applies equally to Harbour witnessing, Prison witnessing, Special Metropolitan Public Witnessing and all other forms of public ministry. Would those who oversee this activity please ensure that those under their care are aware of this direction.

In addition, it has been decided that the special preaching campaigns in London and Malta, scheduled for May, will be postponed until further notice. Please ensure that all those invited are made aware of this as soon as possible.

We do not know how long the situation will remain as it is, but we are confident that Jehovah will ensure that a witness continues to be given in spite of current restrictions.

Please be assured of our warm Christian love and best wishes.

Your brothers,  
*Christian Congregation  
of Jehovah's Witnesses*
