TO ALL BODIES OF ELDERS IN THE UNITED STATES BRANCH TERRITORY

Re: Making the Best Use of Our Kingdom Halls

Dear Brothers:

We are pleased to inform you that a video entitled “Making the Best Use of Our Kingdom Halls” has been prepared for the congregation. This video provides a closer look at how Kingdom Halls are being used and explains the reasons behind recent changes affecting congregations throughout the U.S. branch territory.

The video will soon be available to the elders in the “Event Media” section under the “Documents” tab on jw.org in English, Spanish, and American Sign Language. It should be played at the beginning of the local needs part for the week of February 5, 2018. The chairman of the Life and Ministry Meeting should briefly introduce the video. If your congregation will be attending a circuit assembly, then it may be scheduled for a future local needs part. Since the time allotted for the local needs part will be insufficient to show the video, other parts in the meeting that evening should be reduced accordingly.—See *Instructions for Our Christian Life and Ministry Meeting* (S-38), paragraph 6.

At the conclusion of the video, please commend those who have made adjustments or sacrifices to cooperate with any changes being made in your area. Please be assured of our warm Christian love and best wishes.

Your brothers,

*Christian Congregation
of Jehovah's Witnesses*

c: Circuit overseers
