TO SELECTED CONGREGATIONS

Re: 2018 Special Conventions—Selection Process Completed

Dear Brothers:

As you are aware, selected congregations in the Britain branch territory were invited to apply to attend special conventions in Oslo, Norway and Colombo, Sri Lanka in 2018. Since the application process began, it has been very encouraging to see so many express an interest in attending these special conventions and share in what will no doubt be a joyous occasion.

However, we regret that all the available spaces allocated to our branch have now been filled. We appreciate that this may cause some disappointment to those who have not been selected to attend a special convention, but we hope that other such opportunities will arise in the future. We would be grateful if you would communicate this information to any in your congregation who have applied to the special convention but who have not been selected.

Please be assured of our warm Christian love and best wishes.

Your brothers,

*Christian Congregation
of Jehovah's Witnesses*

PS to congregation secretary:

Please note that although generally speaking it will no longer be possible to select further applicants, a handful of applicants may still receive a late invitation. Only if an existing delegate cancels his or her plans to attend the special convention will we be able to select a new applicant. Please do not inform applicants of this possibility at this time.
